👤 Profile

I'm a Mobile Developer with expertise in Flutter, building apps that work smoothly on both iOS and Android. I focus on creating user-friendly and visually appealing designs, ensuring a consistent experience across devices. I'm skilled in integrating APIs, managing app performance, and writing clean, efficient code. My goal is to develop apps that are both easy to use and enjoyable for users.

💼 SKILLS

Flutter
Mobile Dev
- Cross-Platform Development
- API integration
- Firebase Integration

Laravel
Web Dev
- Back-end systems for web applications
- Database Migrations & Seeding
- Error Handling & Logging
